“The Masters has given me so many opportunities. I started working on real world industry events from my first week. Plus being able to connect with students from other areas has helped me create my own photoshoots and build my portfolio so easily”

TOUCH-UP BAR

Our T.M. Touch Up Bar is a fun pop-up where students provide MakeUp, Beauty and Hair treatments to guests at industry events.

We've had students working at Melbourne Retail Festival, Hair Expo, Melbourne Fashion Week and more!

In November our students will work backstage at the AACTA awards providing MakeUp services to all the Actor Nominees, including Kylie Minogue!

SHORT COURSES & WORKSHOPS

UpSkill is our new short course and workshop department dedicated to providing students with skillsets expected in industry but not taught in traditional Diplomas or Certificates.

Lunchtime seminars on personal branding, networking, client engagement and more help our students really stand out of the crowd. We also run evening and weekend workshops across all our departments. Students love to take a short course in a different discipline such as fashion design or personal hairstyling or learn how to nail that flat lay for social media.
